

# TEN MINUTES OF SETUP

- [ ] Turn on a second sign-in step for your email.
- [ ] Install a password manager and move your email and banking passwords into it.
- [ ] Replace any password you use on more than one site.
- [ ] Turn on automatic updates on your computer and phone.
- [ ] Restart your browser so the waiting update installs.
- [ ] Set a screen lock of six digits or more on your phone.
- [ ] Set up one backup of the files you could not recreate.
- [ ] Find the report button in your mail app.
